

INNOVATION. LEADERSHIP. EXPERIENCE. DESIGN.

CHANNEL
Think Big. Move Fast.

we exist

We exist to provide a platform for innovation and creativity, based on a foundation of teamwork, to make our customers' products the best in the world, while enhancing the life of the end user.

improving your **bottom line**

Customers choose Channel Products for integrity, leadership, unparalleled customer service, and independent thought. They stay with us, because we help them achieve competitive advantage, increase sales, improve productivity, enhance margins, and lower costs.

giving you the **advantage**

Best-known for igniters, safety controls, assemblies, and accessories, we provide manufacturers worldwide with high-quality systems for a variety of industries. We're also a sought-after supplier of ceramic materials, piezoelectric transducers, nebulizers, filters, and resonators.

**custom
solutions**

We engineer custom solutions that result in competitive advantage for our customers.

world-class engineering

We apply our tremendous engineering capabilities, along with expertise in our industry and yours, to develop technologies, components, and systems that enhance your bottom line.

45 patents

We lead with engineering expertise and proven technology.

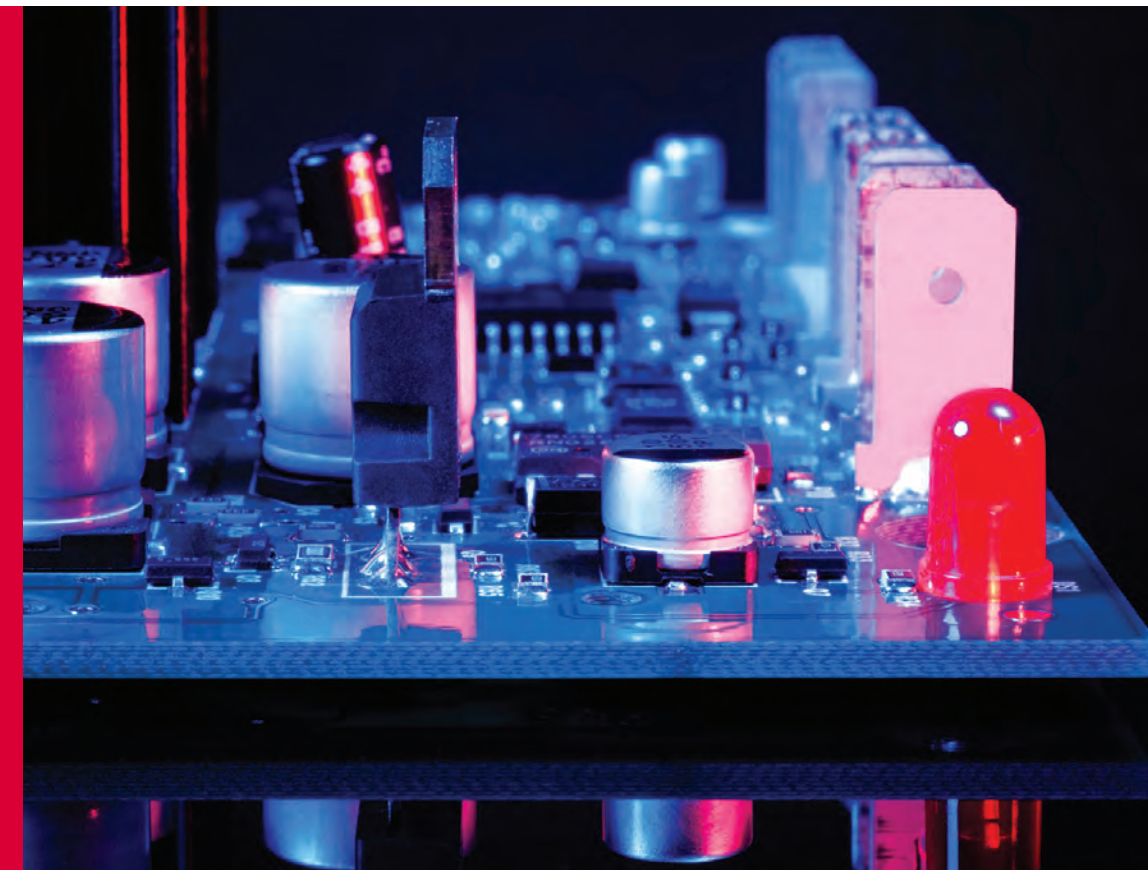

experience

We approach projects with creativity, responsibility, and sense of purpose. The result? An unparalleled capacity to innovate.

knowledge

With deep industry experience and even deeper passion, we can help you achieve your engineering vision faster.

proven success

That's why we employ people with proven track records at helping companies shape their futures through sophisticated engineering and operational expertise.

retrofit

Sometimes the best solution is to add new technologies to existing products. The biggest names in the most competitive industries leverage our world-class capabilities to solve these challenges.

ahead of the curve

one team

In a landscape where many businesses have access to similar technology, equipment and processes, experienced people make the difference.

strong people
strong values

fast paced

Customer Focus

drive towards
your success

think global
act responsibly

We empower our people to shape not only our business, but also the world around us and the communities where we live and work.

cost quality delivery

Great supply chains create more than cost efficiencies and economic convenience. We collaborate with customers to build domestic and global supply chains resulting in product and process innovations that can come only from the closest working relationships between trusting partners.

Our approach to manufacturing yields similar benefits, combining customer-centric workflow with lean, six sigma processes to achieve a sought-after combination of quality workmanship, on-time delivery, and speed-to-market.

world class

Our domestic and international manufacturing capabilities help customers improve safety, ensure reliability, and enhance efficiency.
