

# DAVID KOLAR

## Chief Technology & Innovation Officer

### LIFE PHILOSOPHY

“Those who would give up essential Liberty, to purchase a little temporary Safety, deserve neither Liberty nor Safety.”  
— Benjamin Franklin

### MOST PROUD OF

Reaching the ends of the earth and now being able to share some of these adventures with my family.

The camaraderie and selfless teamwork by everyone at CPI.

### STRENGTHS

Product Development

Innovation

Results Driven

Risk Management

Strategy

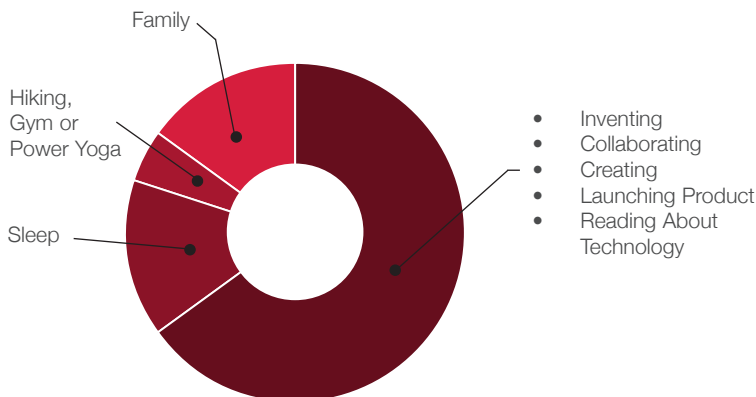

Team Building

Engineering

Leadership

Futurist

### A DAY IN MY WEEK

David joined Channel Products in 2023 as EVP of Engineering. He was quickly promoted to CTO in early 2024. David brings over two decades of engineering leadership, innovation, strategy, team building and common-sense process development.

He holds over 50+ patents in multidisciplinary fields of electrical/electronic and mechanical engineering. He has a wide variety of professional and personal interests.
